Emma Pötzsch from class 7B sent her opinion about the performance to the actors.

In my opinion it was a very nice story with a wonderful Happy End.

I liked your costumes very much because for example the costume of Silver Jane looked like a costume from another planet. The props were exciting because there were only 2 walls with a lot of characters. I think that you are very good actors with a great future. Your answers to the questions at the end were very funny. In my opinion you spoke so loudly that we German people could understand it.
